Do more with your files...

Once you've backed up your files with Livedrive Backup, you can do so much more with them!

Once your files are backed up with Livedrive Backup you can access them securely at any time from any web browser. Wherever you are and whatever you're doing, just log in to www.livedrive.com to do all of this and more:

View your documents

View most Microsoft Office documents straight from your web browser – no need for Office to be installed.

Listen to music and watch videos

Play and queue music right from our secure website. Our music player even lets you create playlists and view album art. Stream your movies and videos online instantly – no need to download them first!

Create photo slideshows

View all of your photos online – neatly displayed with thumbnails. Even create slideshows of your favourite pictures.

Access old versions of documents

Need to go back to an older version of a document? Livedrive stores up to 30 previous versions of files you've edited – download them with one click.

See your files on your mobile

Go to m.livedrive.com on your mobile to view your files on your mobile device. If you've got an iPhone, download the Livedrive iPhone app from the iTunes store (it's free) and view all of your files wherever you go!

Minimum system requirements

Requires a Windows XP, Vista or Windows 7 PC with 512MB of RAM and a broadband internet connection.
